

VICON NEXUS 1.7

MAXIMIZE YOUR RESEARCH CAPABILITIES

Your research depends on reliable results and Nexus 1.7 delivers what you need. Nexus 1.7 adds integrated Eye Tracking, support for the latest high definition Basler cameras and improves the digital interface with Noraxon EMG systems.

EYE TRACKING MADE EASY

Integration of the Ergoneers Dikablis Eye Tracking Solution delivers first-class, highly accurate data. The Dikablis system offers an easy, lightweight, reliable, flexible and complete eye tracking solution. Accurately track and calculate head position and 3D Gaze Vector in any environment and watch how the vector interacts with objects in your Vicon workspace!

INCREASED BASLER COMPATIBILITY

Support for the new Basler GigE PIA-1000-60 HD camera allows for high resolution video with frame-for-frame synchronization with the industry's most accurate optical data.

IMPROVED DIGITAL NORAXON EMG SUPPORT

Noraxon EMG systems use digital interfaces to maximize the quality of signal transmissions. Nexus 1.7 takes advantage of digital interface quality to give you the cleanest EMG signal possible.

WINDOWS 7

Nexus can be installed and run under Windows 7 32-bit and 64-bit OS, and provides access to all the new benefits that this updated operating system offers.
